Dear FCC:

I am writing to complain about the proposed changes to the Universal Service Fund and requesting that the FCC investigate this matter further before changing the current policy. Your proposed \$1.00 per month charge for all wireless phones will directly impact my ability to retain my wireless service.

I do not think it is fair to charge EVERYBODY \$1.00 dollar regardless of how they use their wireless phone, especially for a low-volume user that relies on wireless service for safety and security, not interstate calls. The current policy is fair, based on interstate usage, and should be left alone. Please do not penalize us. Keep this fair.

The reason I got this phone and service is because I am a college student. This is a very affordable way for me to be safe incase of emergencies, and talking with friends and family. I pay as I go and I love this service. My raising prices, it will not be affordable for me anymore and all my other friends I have recommened this too. If you lose me, you lose many other college students and or adults in my situation. I need this phone and love what I have now. Please, please don't change it!!!!

Thank you for your prompt attention to this matter. Please provide a written response indicating the status/resolution of this matter.

Very truly yours,
